

KIRIL PETROVSKI

Madrid, Spain

(+34) 627 651 684 | kpetrovski.ieu2024@student.ie.edu | LinkedIn | GitHub | kpetrovski.me

Eligible to sign an internship agreement via IE University

SUMMARY

Analytical and execution-driven Computer Science & AI student with a strong background in mobile development, full-stack engineering, and AI automation. Adept in technical leadership, cross-functional collaboration, and shipping production-grade software across startups and internship environments. Passionate about building AI-powered products that create measurable business impact. Available for internships from Summer 2027.

EDUCATION

IE UNIVERSITY

Madrid, Spain

Bachelor in Computer Science & Artificial Intelligence

Expected: May 2028

- GPA: 7.81/10.00 | ML final project: Chess cheating detection engine – 100/100 | IB: 38/45 (HL Math & Physics)

EXPERIENCE

Naiss Ride Company

Madrid, Spain

Mobile Software Engineer

June 2026 – Present

- Engineering production features across trips, feed, camera, gamification, auth, and payments in a live React Native / Expo / TypeScript app using Expo Router, Zustand, NativeWind, Convex, and EAS.
- Improving reliability and observability with Sentry and PostHog; contributing to test coverage via Jest (unit) and Detox (E2E) within a cross-functional mobile engineering team.

EaseAccess24

Remote

Software Engineering Intern – Developer Productivity & AI Automation

June 2026 – Present

- Built an internal CLI tool (`ea24 env pull`, `ea24 env check`) to automate `.env` switching across staging and production environments, replacing an error-prone manual workflow with Vercel and Psono integrations.

Cleanr

Madrid, Spain

Tech Lead & Full-Stack Developer

March 2025 – April 2026

- Led a team of 3 developers building an Uber-like apartment-cleaning marketplace using React Native, Expo, TypeScript, Firebase (Firestore, Auth, Cloud Functions), Stripe, and Google Maps.
- Architected real-time booking, cleaner matching, on-demand and scheduled flows, and cancellation logic, delivering a fully automated end-to-end service marketplace across iOS and Android.

Kanamoh Solutions

Madrid, Spain

Front-End Developer

April 2025 – June 2025

- Built a React.js front-end for an LLM-powered 3D printing platform; part of the winning team in the OpenAI x IE | ChatGPT Use Case Playbook Competition hosted by IE Big Data & AI Club.

TECHNICAL PROJECTS

StreamScope – Real-Time Chat Intelligence – 2nd Place, IE Tech Venture Bootcamp 2026

2026

- Shipped a real-time chat intelligence MVP for live streamers in 10 days, placing 2nd; led technical architecture and full-stack delivery under competitive deadline constraints.

Aura AI Secretary – Conversational AI / VoIP Automation

2025

- Architected an LLM-driven virtual receptionist with VoIP integration for automated call routing and scheduling; helped secure two enterprise clients (Luxembourg medical office and restaurant chain).

NomNomNow – Serverless Cloud Architecture – AWS

2024

- Designed a serverless food delivery backend with AWS Lambda, DynamoDB, API Gateway, Cognito, Step Functions, CloudFormation IaC, and WebSocket real-time order tracking.

Battleship Multiplayer & Polygon Protocol – C / POSIX Sockets | Godot Engine – itch.io

2024

- Built a networked C multiplayer game using POSIX sockets, pthreads, and a custom binary protocol; shipped a solo roguelite game jam entry ranking **#7 in Enjoyment** and #11 Overall out of 160 submissions.

SKILLS & CERTIFICATIONS

- **Languages & Frameworks:** Python, JavaScript, TypeScript, C, SQL; React Native, React.js, Next.js, Node.js.
- **Mobile & Cloud:** Expo, Expo Router, EAS, Zustand, NativeWind, Convex; Firebase, AWS (Lambda, DynamoDB, API Gateway, Cognito, Step Functions, CloudFormation), Docker, Git/GitHub, CI/CD.
- **AI, Testing & Observability:** LLM integration, NLP, prompt engineering, REST API design; Jest, Detox, Sentry, PostHog.
- **Certifications & Languages:** AWS Educate – Compute (2024); UDEMY Python Bootcamp (2024). Macedonian & English (Native); Spanish (Intermediate); German (Beginner).
